

2019 EXPO SERIA

14-15 November, 2019 10:00 ~ 17:00
SERIA ENGINEERING, INC. (Kagamihara Factory)

Dear Valuable Customers

We are grateful to you for your continued prosperity.
Thank you for your special attention to SERIA.

「SERIA」 is always pursuing possibility of any product manufacturing from
the perspective of Screen Printing Equipment maker.

To be the best partner drawing the future for customers with keeping
Quality and Trust.

And contributing to social development is just our policy we aim,
“Customer Satisfaction Company” .

This “Expo SERIA” has started the new expansion of PE (PrintedElectronics),
in which production control systems, display and video release of Direct
Screen mask, various printing products composed of the new materials
will be introduced.

We do hope you come and visit our Private Show “2019 EXPO SERIA” .

We would like to look forward to seeing you there.

SERIA CORPORATION
Satoshi Mochida /CEO

Renewal !!

Gapless Synchronized Screen Printing Machine

RYURONE 355Z

High Accuracy Screen Printing Machine
with 0mm Gap

Screen Mask Distortion on printing is dramatically
decreased and Printing Positioning Accuracy is improved.

This Gapless Screen Printing Machine makes possible for stable
continuous printing of Fine Line (L&S 30 μ) which was the hard
target by the conventional machines.

Seminar

14 : 00 — 15 : 30

■ Instructor

Mr.Kenji Yokomakura
Mr.Shinya Maekawa
Mr.Daisuke Kobayashi

Solution Proposal from SERIA against the printing issues.

~ 3 Sacred Treasures of Screen Printing = Equipment, Screen Mask, Mechanism ~

Our presentation got highly reputation from many customers last year.

Now, we will provide more sophisticated and advanced technology and solution for you at this session!
And PE (Printed Electronics) to the next step! We will also introduce the latest PE technical trend.

Exhibit contents

Semi-Automatic Printing Machine

SSA-PC660A

Semi-Automatic Printing Machine

SSP-860AN II

Semi-Automatic Printing Machine
with CCD Camera

SSA-PC250E-IP

Fully-Automatic Printing Machine
with CCD Camera

SFA-610CT

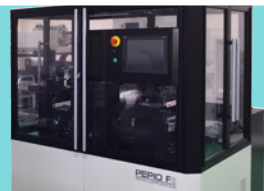

Semi-Automatic Vacuum Coating machine
with CCD Camera

SVM-6151IP

Semi-Automatic Printing Machine
with CCD Camera

SSA-PC660IPN

Semi-Automatic Gravure Off Set
Printing Machine

PEPIO F6

Fully Automatic Squeegee Grinder

SSS-1000ANG

Materials

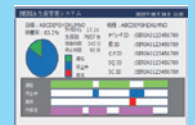

**"Seeing is better than hearing."
Please feel our proposal consumable materials
by your eyes and touching.**

Not only Squeegee, Hydro wipe, Solvent but also other special materials will be exhibited.
Furthermore, each booth will be well designed to make you know more about our recommendation materials

Production Management System

No Need PC ! Available from compact type.

System Package, "Visualization" of SERIA screen printing machine running.
It supports your production improvement with drawing the possibility of equipment.
We will introduce Output information extraction sample of SERIA Screen Printing machine.

Stencil making / Direct Stencil Making

"SERIA Stencil Making" can accommodate for all Screen Printing, from Graphic to Electric.

Screen Mask area exhibits special screen mask to meet each specification.
Screen mask is very important item to create the printing technology and recently the potentiality has been increasing.
It must be a good chance to know our screen mask technology.

PE(Printed Electronics)Business

SERIA will challenge to Solution of the next generation.

This business such as Industry 4.0, IoT, AI and so on is expected the big change.
WE will introduce the new technology solution such as increasing demand for semiconductor, sensor with taking advantage of KOMORI-SERIA consolidation synergy.

**Deadline for
Application**

November 6, 2019 (Wed.)

• Please refer the place and access to the attached application form.

2019 EXPO SERIA Application Form

Thank you for your consideration to participate in our Expo SERIA.
We appreciate that you would send back this form by e-mail for our procedure?

If you have questions, please contact us

[Date] November 14, 15, 2019
[Exhibited Time] 10:00~17:00
[Place] SERIA Engineering, Inc.
Kakamigahara Factory

SERIA Corporation Overseas Dept.

TEL : 81-3-3800-1050

E-mail :

[Seminar] 14:00~15:30

《SERIA Proposal, "how to Approach for your Printing problem" 》 - Equipment, Screen mask, Mechanism -

Lector : Mr.Kenji YOKOMAKURA (Equipment) / SERIA Engineering, INC

Mr.Shinya MAEKAWA (Screen Mask) / SERIA Corporation

Mr.Daisuke KOBAYASHI (Mechanism) / SERIA Corporation

Department	Name	Your visiting day	Seminar	Visiting time	Transfer Bus	Lunch
		11/14 11/15	entry/ No entry		Use/ No Use	Need/ No Need
		11/14 11/15	entry/ No entry		Use/ No Use	Need/ No Need
		11/14 11/15	entry/ No entry		Use/ No Use	Need/ No Need
		11/14 11/15	entry/ No entry		Use/ No Use	Need/ No Need
		11/14 11/15	entry/ No entry		Use/ No Use	Need/ No Need

If you have any questions, please contact us.

Transfer bus (from / to Gifuhajima Station)

<Pickup/Drop-off point>

North Exit at Gifuhajima Station of Shinkansen

In front of "J Net Rental Car" shop at the right of North Exit

<Bus Time Table>

Go	Gifuhajima St. → SERIA Engineering
1st	Gifuhajima St. 10:10 Departure
2nd	Fihuhajima St. 12:10 Departure

Come	SERIA Engineering → Gifuhajima St.
1st	SERIA Engineering 14:30 Departure
2nd	SERIA Engineering 16:30 Departure

Bus waiting place (Near "J Net Rental Car")

※It may be delayed due to traffic jam.

Delivery Address
